Alexandria Affairs. Reported for THE EVENING STAR. CORPORATION COURT.—The city court resumed its session this morning. J. B. Owens and J. T. Downey, indicted in connection with the keeping of a gaming table, were brought before the court. It appeared that the indictment was based upon the keno games in progress when the police made the raid on the Green nouse or Little Tontine some months ago, and the case is submitted to the court as to the trial before the mayor and the punishment of the parties under the corporation law. This question is to be determined by Judge Meade before the indictment goes to trial. Messrs. K. Kemper, S. G. Brent and J. W. CITIES OF THE DEAD.—The new cemetery which has been laid out on the the south of St. Paul's graveyard is called Bethel cemetery, and lots are now being disposed of, and the ornamentation of the grounds is going on. Of the three cemeteries in town—Christ church, the Presbyterian and the Friends-the latter is the only one that has been used for burial purposes within the past fifty years. The ceme-teries established on the edge of the town early in the present century are now all full, except where a large addition has been made to the cemetery, opened north of the Presschool took place yesterday morning at the byterian cemetery in 1840, has now but little room for graves. A CHILD'S SUFFERING

FROM ECZEMA. EARS AND SCALP COVERED WITH SCABS AND SORES, CURED BY CUTICURA.

My little son, aged eight years, has been afflicted with Eczema of the scalp, and at times a great portion of the body, ever since he was two years old. It began in his ears, and extended to his scalp, which became covered with scabs and sores, and from which a sticky fluid poured out, causing intense itching and distress, and leaving his hair matted and lifeless. Underneath these scabs the skin was raw, like a piece of beefsteak. Gradually the hair came out and was destroyed, until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. I used to tie his hands behind him, and in many ways tried to prevent his scratching; but it was no use, he would scratch. I took him to the hospital and to the best physicians in Peabody without success. About this time some friends, who had been cured by the CUTI-CURA REMEDIES, prevailed upon me to try them. I began to use them on the 15th of January last. In months every particle of the disease was removed. Not a spot or scab remains on his scalp to tell the story of his suffering. His hair has returned, and is thick and strong, and his scalp as sweet and clean as any child's in the world. I cannot say enough to express my gratitude for this wonderful cure by the CUTICURA REMEDIES and wish all similarly afflicted

to know that my statement is true and without exag-CHARLES MCKAY, Oct. 6, 1885.

I have seen Mr. McKay's boy when badly affected with the Eczema. He was a pitiful sight to look at. I know that he has tried our best physicians, and did all that a father could do for a suffering child, but availed nothing. I know that the statements he has made you as regards the curing of his boy by your CUTICURA REMEDIES are true in every particular. WILLIAM J. MCCARTHY. 33 Foster St., Peabody, Mass.

NO ACHE, OR PAIN, OR BRUISE, OR STRAIN

SOUR BREAD.

Sour bread is caused by pure yeast, or an excessive fermentation in the dough. Sour biscuits are caused by the use of an adulterated, impure, or improperly compounded baking powder. Both are unwholesome, producing intestinal derangements, indigestion, etc.

The sour or alkaline taste attending the use of cheap, low-grade baking powders is due to the fact that such powders are not properly combined, and that the ingredients used in them are impure. The cream of tartar of the market used by their manufacturers is adulterated from five to twenty per cent. They do not know how much lime it contains, and hence are unable to mix it with the alkali or soda in proper proportions. As high as 11.85 per cent. of lime has been found by the chemists in some of these powders, due to these causes. The result is an imperfect action which renders the bread, biscuit, or pastry heavy, sour, and disagreeable, or a residuum of lime and dirt, imparting a bitter taste to the food. Any baking powder that does this is unfit for uso.

There can be no heavy or sour bread, biscuit or cake where a perfectly made pure baking powder, like the "Royal," is used. In the use of the Royal no residuum is left, and the loaf raised by it is always sweet, light, and wholesome, and noticeably free from the peculiar tastes complained of. This is because it is composed of nothing but absolutely pure materials, scientifically combined in exactly the proper proportions of acid and alkali to act upon and destroy each other, while producing the largest amount of raising power. We are justified in this assertion by the unqualified statements of the Government Chemists, who, after thorough and exhaustive tests, recommended the "Royal" for Government use because of its superiority over all others in purity, strength, and wholesomeness. There is no danger of sour or bitter bread or biscuit where the Royal Baking Powder alone is used
